Discover the power of ESP! Mysterium combines a thrilling deduction game with clever brain teasers, and a monster-hunting board game - all wrapped up in one intuitive, game-changing package. In this story-driven adventure, you and a team of four psychics have been invited to investigate a beautiful and mysterious manor. You'll have to find out what happened to a beautiful young girl who was mysteriously murdered in the midst of the séance. Who could have murdered this young girl? Could the psychics themselves be to blame? And what about the boxes full of items that were sent to the manor? Will you be able to solve all the puzzles and find the truth? In Mysterium, you must connect the boxes to find the right box and the right ending! Be careful - in this game, a small mistake could have deadly consequences... Master the psychic power to play the game as you never have before! Explore the rooms of this haunted manor In Hidden Signs, you must continue to seek out clues and elements to connect the boxes. For your convenience, three new locations can be explored. The conspirators know of a fourth location, but you haven't found it yet. You and your friends will be visiting the manor as characters in the story. You'll each have their own psychic gift and the ability to communicate with the ghost and open up the location cards. But it's not always easy to tell good from evil... Are you brave enough to explore the forbidden rooms in the manor? Will you find the hidden clues that lead to the truth? Can you solve the game before time runs out? If you're looking for a game with a story and high drama - the best kind! - then Mysterium is the best choice. This intelligent deduction game is fun for all the family and truly unforgettable! Get ready for your psychic adventure! Please note that the game may contain mature content. Play in VR mode for an even more immersive experience. Will you be able to solve the game before time runs out?[The predictive and prognostic value of

"We call it 'Mysterium,' but all we know about it is that it involves solving mysteries. Perhaps that's why it's so darned attractive to people!" About the Serial Experiments Lain: "Lain...is a tale of a young woman with a past where mystery and horror are the most important words...you cannot escape these words. You must search for them." As for the musical score, I gave it a seance of both my husband, Hoshi Mikami and a fantastic artist named Joe Delia, with whom I've worked on many projects together. And I really hope you enjoy this expansion! Enjoy! "Once a year I go to a little antique-filled-house on a tiny island in the middle of nowhere. There, I climb into my secret chamber, known only to myself. I unpack my strongest tools, and I wait. Alone. And when I feel the time is right, I wait again. That's when I wait for the most powerful visitor of all: Those who love me." Honeysweet Kiss: Three classic features from the "classic" game version of Mysterium The following features have been remade for the modern age, and have been translated to Japanese: Discard and Take modes Day and Night modes Night vision Thanks for everyone who beta tested this, and thank you for helping us make this game better! About This Content The haunted manor still holds a few secrets... In Haunted Manor, the first expansion for Mysterium, you must again try to clarify the circumstances of the ghost's death. The plot thickens, as the psychics consider all-new leads: 6 suspects, 6 locations and 6 objects. To help them in this task, the ghost has 42 new vision cards with which to communicate more effectively. Return to the manor - your seat at the séance table awaits... (This is something you can do to help us!) It has become so easy to get distracted from what really matters in life and to become focussed upon 'things'. As a result, we spend too much time 'doing' than 'being'. A recent TED talk by the renowned thinker, Tony Robbins gives insights and suggestions on how to better manage our time and what makes us happy. He is an expert in the field of peak performance. As someone who is passionate about Time Management, it was fascinating to witness him own up to the fact that even he 'overworks himself'. He says that that is because he is always focussed on the 'now' and he wants to get things done as soon as possible. He shared personal insights on how to change our ways of thinking and being. What's new:

in the Universe The Mysterium is the name of a secret movement of clairvoyant mediums who have communicated with SINN members. The SINN started in 1995,

secretly and with no authority, and feels the obligation to keep the occult underground culture without replacing it with spam, advertising, and all that. Also it feels the necessity to grow and develop in order to end the era of all psychic tv shows

SINN Missions: 1. Reclaiming Lost Symbol: The hands of powers move everywhere! With much desire to start, three members of my group began their mission: Kalen and Sungmi were from Seoul; and I was from America. We gathered together, we had some difficulties - such as: the preparations, analyses, and comparisons before disseminating the books, training courses, and experiences. Finally, we're ready to be in our mission: as the beginning of a great adventure. Our mission is to reclaim lost symbols, to spread the Mysterium, and to save the UNITY of all.

2. Considine university in Cork, Ireland: A real psy-mission, we feel the need to go to Considine university which is full of past history of clairvoyant mediums who communicated with the SINN. So, as many of the convicts who can take their fate, we're going to Ireland to study on the history of masonic, occult, and psychic

mediums. Meanwhile, we want to begin our study about masonry and the occult traditions and we want to study how to build our own Light's Society while we're in Ireland. For the real occult student who wants to move on this level, we want to go to Sky Garden Hotel to learn about the freemasonic tradition that was evolved in Chicago in January 1842. We also want to study one of the most occult institutions - The Annuet Coeptis Society. 3. Police photography in the City of Northampton: A psy-mission, we are going to visit the police in Northampton and we'll really don the role of clairvoyant mediums during police photography to learn their theory of photography and mystical aspect of photography. Another thing, we're going to find out from the police academy in Sandhurst, Surrey. We want to learn more about Narcotics CID, how they investigate and who are the people who are involved in the process. We'll survey the possibilities of working together to investigate to find the
